

## DAY 13

### Test Plan on Amazon Registration Application

URL: <https://www.amazon.com/registration>

Prepared by: Harshitha B

Date: August 6, 2025

**1. Test Plan Identifier**= tp\_amazon\_register\_2025\_AMZ

**2. Introduction**= This test plan outlines the process for testing the Amazon registration functionality. The objective is to create a new user account, ensuring the following:

- If the password and re-entered password match, display "Account created successfully."
- If the passwords do not match, display "Invalid details."
- If the email is already associated with an account, display "Account already exists."

**3. Test Items**= Your name, Email, Password, Re-enter password, Next link, Conditions of Use

**4. Features to be Tested** = Your name field (valid/invalid input handling), Email field (format validation, uniqueness), Password field (strength, format), Re-enter password field (matching validation), Next link (navigation functionality)

**5. Features Not to be Tested** = Amazon title/logo, "Already have an account" link, Footer logos and links

**6. Approach** = Manual testing will be conducted using black-box testing techniques, focusing on functional testing of the registration process.

7. Item pass/fail criteria = count all passed and failed cases

8. suspension criteria and resumption requirements=6/8/2025 suspension

**9. Test Deliverables** =

Test Cases Document

Test Reports

Test Plan (this document)

Test Summary Report

Test Bug Report

Test Analysis Report

Review Documents

Bug Analysis Report

## 10. Environmental Needs

Operating System: Windows 11 PC

Tools: Microsoft Excel (for test case management)

Browsers: Google Chrome, Mozilla Firefox 2

Network: Stable internet connection

Responsibilities = Harshitha B (prepare **test cases & test analysis reports**)

Staffing and training needs = selenium webdriver

Schedule=6/8/2025

Risks and contingencies = no risk

Approvals=Vaishali
